20L Drum

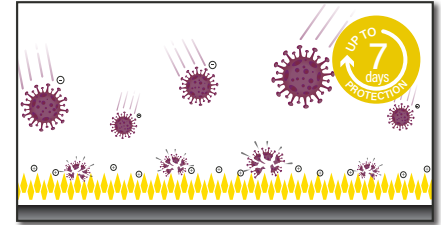

7 Day Residual Activity Against Bacteria*

Germs and bacteria are negatively charged germs.

InvisiGarde® uses positively charged particles to breakdown membranes of germs, killing them on contact.

Creating 'Your Germ Shield' that provides residual activity for up to 7 days. Longer protection than traditional disinfectants.

✓ *Proven up to **7 days of residual activity** against; S. aureus, E. coli.

✓ Creates a barrier, and helps reduce mould and mildew.

✓ **Kills 99.9999% of germs** such as S. aureus, S. choleraesuis.

✓ Ideal as a **daily cleaner & sanitiser**, on hard surfaces.

✓ Provides a broad spectrum anti-bacterial surface protection.

✓ **Alcohol and Bleach Free.**

InvisiGarde[®]
YOUR GERM SHIELD

HOW TO USE

You can use InvisiGarde[®] Anti-Bacterial Cleaner & Surface Shield as a daily surface cleaner and household-grade disinfectant spray, providing up to 7 days of residual activity against bacteria. Or in conjunction with InvisiGarde[®] Hospital Grade Disinfectant Spray & 28 Day Surface Shield.

HOW AND WHEN TO USE

(ABC) Anti-Bacterial Cleaner & Surface Shield

APPLICATION NEED	STEP 1 Clean & Prep Surfaces	STEP 2 Disinfect & Protect Surfaces	Frequently Touched Areas (e.g. door handles, benchtops, light switches)	Infrequently Touched Areas
General Anti-Bacterial Cleaning & Surface Protection	Spray and wipe to clean the surface with undiluted ABC.	For 7 day protection against bacteria , spray surface with ABC and allow 60 minutes to dry. (As per instructions on label)	Clean & Protect Surfaces: Repeat STEP 1 - Daily or as required.	Clean & Protect Surfaces: Repeat STEP 1 & 2 - Weekly or as required.

Tips:

1. Always use a compatible cleaner with your disinfectant. Some cleaners can neutralise disinfectants and stop them from working.
2. SAFE WORK AUSTRALIA states that you MUST clean a surface before disinfecting, or the disinfectant can't do its job properly.
3. To kill COVID-19 and protect surfaces for up to 28 days, use InvisiGarde[®] Hospital Grade Disinfectant Spray & Surface Shield.
4. To protect hands from germs for up to 24 hours, use InvisiGarde[®] Foaming Hand Sanitiser & Shield.

✓ PERSONAL

Ideal for daily general cleaning and disinfecting. Helping protect family and friends. Just spray and wipe as usual, and leave it to dry for longer protection.

✓ WORKPLACE

Protect your staff and customers by spraying high contact areas daily. At the end of the day, spray and leave it to dry for up to 7 day protection. Consider using our Foaming Hand Sanitiser & Shield for added personal protection from germs.

✓ BUSINESS

Run a cleaning business? InvisiGarde[®] Anti-Bacterial Cleaner & Surface Shield is perfect for general cleaning. Give your customers peace of mind that you not only cleaning, you are providing longer protection than traditional disinfectants.
