

Ferry Built Campervans

Solomon Series

Named after Solomon Wiseman, the founder of Wisemans Ferry, this range of Australian made slide on campervans provides owners with space and comfort at a very affordable price. Whilst the price is low, the list of creature comforts isn't e.g. Smev glass top stove and sink are standard inclusions across the range.

With a Ferry Built campervan, you can enjoy the best of the great outdoors, knowing if the weather turns bad, or the mozzies are biting, you have a fully enclosed campervan with a cosy bed made up and ready for you to jump into.

Check out the list of optional extras, and make this campervan your very own by adding the creature comforts that you want.

Contact us to make an appointment to view our current stock and enjoy a tour of our workshop.
